LIVIU-VALENTIN BORDEA

SOFTWARE DEVELOPER & CYBERSECURITY SPECIALIST

Software developer with a Master's degree in Cybersecurity and a Bachelor's degree in Computer Science, plus one year of professional experience. I enjoy building fast, secure and user-friendly software, and solving problems across the whole IT stack.

EXPERIENCE

Freelance Web Developer
Self-Employed (PFA), Romania | Oct 2025 – Present | 1 year

PROJECTS

Master's Thesis: AI Image Reconstruction in Cybersecurity
Implemented and analyzed AI-based image generation and reconstruction techniques (StyleGAN3, Stable Diffusion, VQ-VAE-2, DALL-E), evaluating their effectiveness in cybersecurity applications.

Bachelor's Thesis: Learn & Play for Kids (Android)
Developed an Android application from scratch with Android Studio and Java, providing interactive educational content for children. Required UI/UX, full-stack development and project management skills.

TikTok Interactive Game PERSONAL
Python-based interactive game for TikTok Live: processes viewer comments in real time through the TikTok API, with quiz challenges, image puzzles, winner display and a live leaderboard.

RFID Security Project PERSONAL
Explored emulating a 13.56 MHz RFID card on an Android smartphone for access control; researched RFID technology and Android capabilities until the requirement to root the device was identified.

Website for an Educational Institution
Designed and implemented a secure, user-friendly website for a local school on a web development platform, improving document sharing and internal communication, with cloud storage for data security and accessibility.

Personal portfolio website VALENTINBORDEA.COM
Built with Svelte and TypeScript and deployed to GitHub Pages through an automated CI/CD pipeline; focused on performance, accessibility and SEO.

CERTIFICATIONS

Introduction to Bitcoin and Open Blockchains Workshop
Pragma Workshops — Andreas M. Antonopoulos

Introduction to Cybersecurity
Cisco Networking Academy
